Substitute amended sequence listing

The substitute amended sequence listing added by this amendment corrects the errors noted in the Raw Sequence Listing Error Report that was attached to the Office Action mailed December 5, 2003 and the Raw Sequence Listing Error Report faxed to Applicants' representative on February 5, 2004.

A computer readable form containing the amended substitute sequence listing in ASCII accompanies this amendment. I believe the sequence listing information recorded in computer readable form is identical to that in the written sequence listing.

Respectfully submitted,
